Samhita Trust was founded on 19/4/2014 with the purpose of disseminating Indian culture and philosophy to entire world. The original intent of the organization is to solve the difficulties of the people through Yoga, Meditation, Ayurveda and Indian wisdom. Also to provide samskara and tatwa darshana. In this background, we have set up the principal office of the organization in a remote village *Baginakatta* deprived of urban infrastructure located in Yellapur Taluk of Karwar District in Karnataka, India and also we have office in "Vidyakrupa" #14, 2nd Cross, 3rd Stage, Gokulam Mysore - 570002.

The invaluable knowledge and wisdom enshrined in our rich cultural heritage is the foundation for India's illumination and brightness. The nectar of this great knowledge is embedded in the sanctum sanctorum of the mother goddess of Sanskrit. Sanskrit is the root of Indian cultural heritage. Scientific research followed by Communication and propagation of concepts in the field of philosophical, scriptural, cultural and spiritual wisdom are absolutely essential for our nation's cultural enrichment. With this mission and vision, Samhithaa organization has been founded. Samhithaa organization is Located in the naturally resounding village of Baginakatta which is at a distance of 22Km from Yellapur taluk situated in the district headquarters of Karwar. Surrounded by lush greenery and flushing meadows, the village is a veritable resort of enchanting streams, gorgeous valleys and mountainous tracts. Although the region may be lacking in urbanized development, but it is blessed with resources for spiritual practices and upliftment. For example 24 members of Norway organization called "Back In The Ring" who had got caught in the web of addiction, came out through rehabilitation and got their life rejuvenated by undergoing Yoga and spiritual practices in this village. Apart from getting rehabilitated, the foreigners also paid tributes to the villagers by participating in the renovation of the Local Ganapati temple. Similarly, with a view of protecting our culture, the organization Samhithaa has been conducting many events. By conducting International Yoga conferences, Samhithaa has been successful in creating philosophical, scriptural, cultural and spiritual awareness internationally among people. Apart from these, to expand the philosophical, scriptural, cultural Yogic and spiritual wisdom of India, Samhithaa organization is planning to start Scientific research and academic activities following the age old system of Gurukula education. With this vision Samhithaa organization has taken leading step in the development of Sanskrit and Indian philosophical wisdom. The vision of Samhithaa also envisages creation of employment opportunities for eminent scholars of Sanskrit. A platform is being created for an application oriented practical and scientific study of subjects like Vedas, Vedic science, Philosophy, Spirituality, Yoga and Meditation. Hence our mission is to build a Philosophical city by bringing the study of entire ancient Indian wisdom under one single roof. Moving in this path, all the villagers of Baginakatta have pledged their support towards realizing this mission. Already the villagers are studying Bhagavad Gita in order to establish their village as a GITA GRAMA. The villagers have expressed that they want to make their lives meaningful by the study and practical implementation of the principles of Bhagavad Gita in daily life.

Samhithaa, has laid down the above said vision, in the action plan as below:

- ❖ We have an ambition towards building a philosophical "city" in the lap of the nature within five years and to establish Indian Culture and Sanskrit throughout the world.
- ❖ Samhithaa has a further ambition to establish a common shelter for research and teaching Vedas, Indian Philosophy and Ideologies. From this immense task, we want to create employment for people who are experts in Sanskrit and Yoga and also fulfill the public need for a common place to study this wisdom.
- ❖ We are planning to initiate various activities towards revival of ancient literatures which are in palm-leaf manuscript form with the help of scholars.
- ❖ We aspire to abate the trend of the loss of culture and tradition in our Indian youth and working professionals.
- ❖ We want to introduce traditional Indian wisdom to every citizen by conducting workshops throughout India, especially in various remote places.
- ❖ Children are gems of our future. Samhithaa Trust wants to enlighten children by conducting summer camps which include yoga, meditation and some fun activities.
- ❖ Our organization decided to respond to people's problems by conducting various programs using Yoga, Ayurveda, Meditation, Chanting and Yajna.
- ❖ The Trust intends to initiate a "Karma yoga" program, in which people will work selflessly with others for the greater good and for any country's progress.
- ❖ We have a Vision to translate Indian philosophical texts into various global languages with the help of experts.
- ❖ Discussions are presently taking place to initiate a research program that identifies the use and benefits of Sanskrit and ancient Indian philosophy for applications in modern technology.

OUR ACHIEVEMENTS:

We have started Samhithaa trust just two and half years back. In a way, Samhithaa is a small kid but we have tried our best to expand and protect our culture and ancient wisdom. Hence we have performed following activities:

❖ We have conducted several Yoga, Philosophy, Chanting and spiritual workshops to avoid people's problems.

❖ We have successfully conducted First international yoga workshop on "Yama, Niyama, Asana, Pranayama" in an isolated village called Baginakatta.

❖ We have renovated Ganesha temple in the same isolated village called Baginakatta by involving an organization from Norway called "Back In The Ring" in the project on Karma Yoga.

❖ We are making Baginakatta village as a "GITA GRAMA" by training the villagers in continuous study and learning of Bhagavad Gita.

❖ Through the practices of Yoga, Meditation, Chanting and Karma Yoga, we have helped the members of the Norway organization called "Back In The Ring" towards rehabilitation and better life.

❖ We have conducted Indian philosophy and Chanting classes in Oslo (Norway), Nosen (Norway) and Munich (Germany)

❖ We have conducted many cultural events to protect our ancient folklores and traditional wisdom.

❖ Samhithaa has constructed a arena and renovated old primary school at Baginakatta under the project called KARMA YOGA

❖ We have conducted survey on the human plight amongst our villagers and we have used the results of the survey in improving the condition in the villages through the concepts of Karma Yoga.

❖ Samhithaa's event news have been published in all major newspapers like Kannada Prabha, Prajavani, Vijaya Karnataka, Vijayavani, Udayavani, Samyukta Karnataka and Times of India. Also most of the Kannada news channels have telecasted its effective services like TV9, Survarna News, BTv, ETV, Samaya News and Raj TV.

Samhithaa has a further ambition to establish a common shelter for scientific research on indian wisdom and teaching vedas, indian philosophy and ideologies. From this immense task, we want to create employment for people who are experts in sanskrit and yoga and also fulfill the public need for a common place to study this wisdom.

Working plan of Samhithaa to create vigorous society.

To fulfill Our mission and vision, your precious guidance and support is essential.

We request you to join hands with Samhithaa organization in its Endeavour of protecting the ancient Indian wisdom and cultural heritage.

With Regards
